Re: Comments on ANR Pipeline Company's Abbreviated Application for a Certificate of Public Convenience and Necessity and for Related Authorizations for the Wisconsin Access Project  
Docket No. CP21-78-000

Dear Ms. Bose:

Wisconsin Infrastructure Investment Now, Inc. (WIIN) is a nonprofit organization, and its mission is to educate the public, elected officials and regulators on the societal and economic benefits of the responsible investment in infrastructure projects. WIIN has reviewed the Abbreviated Application for a Certificate of Public Convenience and Necessity and for Related Authorizations for the Wisconsin Access Project (WIA) and appreciates the opportunity to submit comments.

WIIN's contributors and supporters include organizations and individuals that reside and/or work in the WIA project area and will be impacted by the proposed project. The WIA will increase capacity of natural gas transmission with minor modifications to existing stations. Thus, the WIA will maximize capacity of existing infrastructure while minimizing land and environmental impacts to the greatest extent possible. The increased capacity will directly benefit Wisconsin businesses and individuals, whose demand for natural gas is projected to increase.

ANR Pipeline Company (ANR) has been safely and reliably transporting natural gas to Wisconsin since 1949. ANR is a landowner, taxpayer and employer in Wisconsin. It has a long history of using local contractors and local skilled labor to construct their infrastructure projects. In other words, ANR is a good neighbor who literally and figuratively helps power Wisconsin's businesses and homes.

Please include our support of ANR's Wisconsin Access Project in Docket Number CP21-78-000. Again, thank you for the opportunity to comment.

Ms. Kimberly D. Bose, Secretary
